INITIAL ANALYSIS

Upon initial analysis of 4 audio files on 5/29/2021, location markers were made of visible areas where no audio was present in any frequency creating a visible vertical line. Absence of any remnant of audio frequency is typically derived from hardware malfunction or purposeful direction. See *image below*

Close up view of no audio present

550hz Hum emitting from 911 call center microphone

NOTE: Breaking of horizontal 550hz hum frequency across timeline

Located several known instances that were shared on 911 call audio (**000141 9-1-1 call.mp3**) and Wyss extracted audio (**000138 Jim Wyss Body Camera.mp4**). Process of aligning these known audio instances revealed that the Wyss audio did not maintain sync beyond a short 1-2 second duration.

At **12:03** a faint portion of the known recording of Jim Wyss can be heard on the 911 call, followed with a second known Wyss dialogue at **12:09**. This Jim Wyss dialogue can be verified on the Jim Wyss Audio file with the known 6 second space between the 2 lines. See right.

Now on the 911 call audio this is heard again, Jim Wyss's first line occurring at **12:42** and second line **now only one** second later at **12:43**. See right.

A spectral viewing of the **000141 9-1-1 call.mp3** clearly illustrates the large amount of frequency void areas located throughout this recording.

CONCLUSIONS:

- Total amount of Law Enforcement audibly and visibly at scene

1. **Jim Wyss (PD)- 000138 Jim Wyss Body Camera.mp4**

2. **Roger Johnson (SO) - 000139 Roger Johnson Body Camera Interaction**

3. **SO Deputy #1 arrives at 1:54AM** wearing Axon 2 Body Camera - This deputy is also seen in **Unidentified** officer video turning his camera off.

4. **SO Deputy #2 arrives at 1:54AM** - wearing Axon 2 Body Camera

5. **PD Officer #1 arrives at 1:55AM**

6. **Unidentified Female SO Deputy** This is the female deputy wearing the Axon 2 Body Camera footage titled:
000140 Unidentified Officer Body Cam

- **There is additional Body Camera footage that has not been disclosed.**

CONCLUSIONS:

- There are **NO** video edits contained in this footage.
- Original Metadata was removed from this file.
- **7** audio redactions are visible and audibly recognized.
- All redactions are during Officer Wyss's interactions with 911 caller.
- **2** of the redactions do not follow other redaction patterns regarding length and context. This area of the conversation appears to be about the suspect.
- Viewing both Officers', Jim Wyss and Roger Johnson, body camera footage from the last known audible sound Lunneen makes at **1:49:18AM** that Officer Johnson was aware that Lunneen was not breathing as he indicates in his radio transmission to dispatch alerting to speed up medic, because Lunneen is "having trouble breathing" at **1:49:51AM**.
- During the time span from Lunneen's last audible sound at **1:49:18AM** and paramedic arrival to make first observation of Lunneen's condition at **1:52:50AM**, Officer Johnson and Officer Wyss make **NO** efforts to aid, administer or facilitate any life saving measures on Jack Lunneen during this **3 minutes and 32 seconds**. Their conversation indicates that they are more concerned with washing their uniform than Lunneen turning grey and not breathing.
- During the time span from Lunneen's last audible sound at **1:49:18AM** to the first use of any life saving measure by paramedic's use of the Physio -Control Lucas Chest Compression unit at **1:56:37AM**, Officer Johnson is seen grabbing the Lucas from the rear of the paramedic's vehicle at **01:54:48AM**.
- Officer Wyss made no efforts to aid, administer or facilitate any life saving measures on Lunneen during this **7 minutes and 19 seconds**.
- Both Wyss and Johnson claim that they don't know who Jack Lunneen is. Wyss, at minute **00:37:15:00** of his body cam footage, states "And like I don't even know who this dude is." Wyss also states that he came into contact with

Lunneen earlier as Lunneen rode up to his patrol car on his bike talking nonsense mentioning Johnson, as Wyss states at minute **00:41:08:00** of Wyss's body cam footage "Um, and then, I, so, um, loo- he mentioned JR" (Wyss is telling fellow officers about his encounter with Lunneen earlier).

- Johnson, before Wyss arrives at the scene, is heard responding to Lunneen's question "Sir, tell me who's Lunneen?". Johnson's response was "You are." This interaction can be seen and heard at minute **00:1:30:00** of Johnson's body cam footage.
- It was documented that Officer Jim Wyss had gone to his patrol car to grab a life-saving device. Neither Wyss or Johnson ever left the scene of the incident except when Johnson went to grab the Lucas (chest compression device) out of the paramedic car at minute **12:56:00** of Johnsons body cam footage after the paramedic asked for someone to do so. Wyss nor Johnson did anything after Lunneen's last audible sound (heard at minute **00:20:39:00** of Wyss's body cam footage) in an attempt to save his life.

000139 ROGER JOHNSON BODY CAMERA INTERACTION

CONCLUSIONS:

- Total amount of Law Enforcement audibly and visibly at scene:

1. **Jim Wyss (PD)- 000138 Jim Wyss Body Camera.mp4**
2. **Roger Johnson (SO) - 000139 Roger Johnson Body Camera Interaction**
3. **SO Deputy #1 arrives at 1:54AM** wearing Axon 2 Body Camera - This deputy is also seen in **Unidentified** officer video turning his camera off.
4. **SO Deputy #2 arrives at 1:54AM** - wearing Axon 2 Body Camera

5. **PD Officer #1 arrives at 1:55AM**
6. **Unidentified Female SO Deputy** This is the female deputy wearing the Axon 2 Body Camera footage titled:
000140 Unidentified Officer Body Cam

- **There is additional Body Camera footage that has not been disclosed.**

CONCLUSIONS:

- There are **NO** video edits contained in this footage.
- Original Metadata was removed from this file **000139 Roger Johnson Body Camera Interaction.**
- **000139 Roger Johnson Body Camera Interaction.mp4 (SO video)** and **000138 Jim Wyss Body Camera.mp4 (PD video)** appear to have been rendered by the same facilitator on **06:14:2019**.
 - **000138 Jim Wyss Body Camera.mp4 (PD video) - 6:49PM**
 - **000139 Roger Johnson Body Camera Interaction.mp4 (SO Video) - 8:36PM**
 - **000140 Unidentified officer body cam video (SO Video) - 8:45pm**
- *Naming convention for video file is not native Axon file naming formatting. It would have device, year, date and time as part of file name.*
 - ie - AXON Video 2018-10-22 0542
- *Viewing both Officers, Jim Wyss and Roger Johnson, body camera footage from the last known audible sound Lunneen makes at **1:49:18AM**, Officer Johnson was aware that Lunneen was not breathing as he indicates in his radio transmission to dispatch alerting to speed up medic, because Lunneen is "having trouble breathing" at **1:49:51AM**.*
- *During the time span from Lunneen's last audible sound at **1:49:18AM** and paramedic arrival to make first observation of Lunneen's condition at **1:52:50AM**, Officer Johnson and Officer Wyss make **NO** effort to aid, administer or facilitate any life saving measures on Jack Lunneen during this **3 minutes and 32 seconds**. Their conversation indicates that they are more concerned with washing their uniform than Lunneen turning grey and not breathing.*
- *During the time span from Lunneen's last audible sound at **1:49:18AM** to the first use of any life saving measure by paramedic's use of the Physio - Control Lucas*

Chest Compression unit at **1:56:37AM**, Officer Johnson is seen grabbing the Lucas from the rear of the paramedic's vehicle at **01:54:48AM**.

- Officer Johnson made no effort to aid, administer or facilitate any life saving measures on Lunneen during this **7 minutes and 19 seconds**.
- Both Wyss and Johnson claim that they don't know who Jack Lunneen is. Wyss, at minute 00:37:15:00 of his body cam footage, states "and like I don't even know who this dude is." Wyss also states that he came into contact with Lunneen earlier as Lunneen rode up to his patrol car on his bike talking nonsense mentioning Johnson, as Wyss states at minute **00:41:08:00** of Wyss's body cam footage "Um, and then, I, so, um, loo- he mentioned JR." (Wyss is telling fellow officers about his encounter with Lunneen earlier.)
- Johnson, before Wyss arrives at the scene, is heard responding to Lunneen's question "Sir, tell me who's Lunneen?" Johnson's response was "You are." This interaction can be seen and heard at minute **00:1:30:00** of Johnson's body cam footage.
- It was documented that Officer Jim Wyss had gone to his patrol car to grab a life-saving device. Wyss nor Johnson never left the scene of the incident except when Johnson went to grab the Lucas (chest compression device) out of the paramedic car at minute **12:56:00** of Johnson's body cam footage after the paramedic asked for someone to do so. Wyss nor Johnson did anything after Lunneen's last audible sound (heard at minute **00:20:39:00** of Wyss's body cam footage) in an attempt to save his life.

CONCLUSIONS:

- File titled **000140 Unidentified officer body cam video** is **NOT** a one for one copy of the original content from this deputy.
- Naming convention for video file is not native Axon file naming formatting. Would have device, year, date and time as part of file name.
 - ie - AXON Video 2018-10-22 0542
- Original Metadata was removed from this file.
- End recording event button does not appear to be audibly present on both clips located inside of this file. There is a fragment of what is expected to be beginning of the long beep audible and vibration indicator for returning to buffering mode from recording mode. Again, demonstrating this file has been edited, and is **NOT** original.
- Unidentified Officer is a Berrien County female deputy.
- Noted another Sheriff's **Vehicle #31** present.
- Location of **Vehicle #31** is also visible in the other 2 provided videos.
- Female deputy actually arrives at the scene at **2:01:18AM** as seen in the **000138 Jim Wyss Body Camera video** at **32:40:10**, pulling directly behind Berrien County Sheriff vehicle **#31**. This same female deputy can be seen and heard on the **000139 Roger Johnson Body Camera Interaction video** at playhead of **19:54** beginning to engage with Roger Johnson time **2:01:44AM**.
- Female deputy does not start her next Axon 2 Body Camera recording until **2:03:49AM**.
- Male deputy seen from **03:02/T06:03:29Z** was recording with his Axon 2 Body Camera. He can be seen pressing and holding the unit for 3 seconds, this

deactivates the recording function and places the unit back into buffering status.

- **There is additional Body Camera footage that has not been disclosed.**
- Michigan State Police Order No. 39. indicates officers shall activate their body cameras anytime they are to record the following:
 - Dispatched or on a self-initiated police action.
 - All contact with citizens in performance of official duties.

39.1.3. BODY WORN CAMERA USE

https://www.michigan.gov/documents/msp/00_39_Body_Worn_Camera_and_In-Car_Video_Recording_Systems_579030_7.pdf

- The unidentified male deputy was on scene as early as **1:54AM** in the other 2 provided videos.
- The unidentified male deputy should have footage in the amount of at least 10 minutes based upon arrival to scene and what can be seen from this video of him observing the inside the ambulance.
- Berrien County Sheriff deputy seen in **000140 Unidentified officer body cam video** is recording footage with his Axon 2 body camera.
As of this report, this footage was **NOT** forwarded or disclosed.
